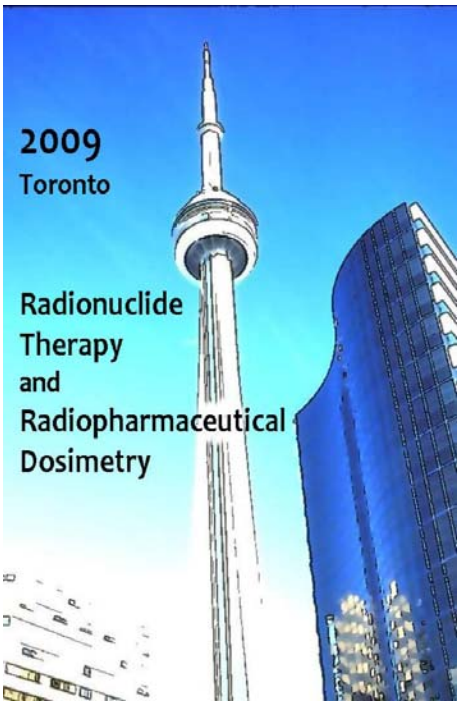
3rd International Symposium on Radionuclide Therapy and Radiopharmaceutical Dosimetry

June 13-17, 2009



The **3rd International Symposium on Radionuclide Therapy and Radiopharmaceutical Dosimetry** and **Workshop on Alpha-Emitting Radionuclides in Therapy** will convene **June 13-17, 2009**, in Toronto, Canada, in conjunction with the **2009 SNM Annual Meeting**.

The 3rd Symposium has been organized by the SNM special committee on Medical Internal Radiation Dose (MIRD), together with representatives of the Dosimetry and Therapy committees of the European Association of Nuclear Medicine (EANM), and the European Commission, Joint Research Centre, Institute for Transuranium Elements, in Karlsruhe, Germany.

The 3rd Symposium follows prior successful international symposia on Radionuclide Therapy and Radiopharmaceutical Dosimetry in Athens (2006) and Helsinki (2004). The 2009 Symposium will blend with SNM sessions in oncology, radiopharmaceutical chemistry, radiobiology and dosimetry. The workshop will highlight current progress in use of alpha-emitters for cancer therapy, continuing a series of successful alpha-emitter workshops. Symposium topics will include:

- Data collection and quantitative imaging
- Biodistribution and pharmacokinetics
- Clinical dosimetry and treatment planning
- Alpha emitters in cancer therapy
- Auger electron emitters
- Radiobiological studies
- Therapy of skeletal metastases and bone pain palliation

All announcements and mailings for the Symposium will be electronic and by website postings. Those who wish to participate in the Symposium must register with SNM to attend the Annual Meeting. Separate Symposium registration will not be offered. Registration, housing, local arrangements, transportation, and other logistical arrangements will be handled by SNM. Local arrangement details will be available at a later date on the SNM website at: www.snm.org.

A future announcement will provide instructions for submitting abstracts. We look forward to seeing you in Toronto in 2009! For further information:
